

ZERO KNOWS MODULAR CONTAINERS

ZERO MODULAR CONTAINERS are custom engineered to meet your needs. Modular Containers are made from light-weight aluminum and make exceptional reusable shipping and storage containers. One of the major economies to be gained in specifying aluminum Modular Containers is that they are “reusable”.

Your first cost is your last cost when you choose these rugged shipping and storage containers. Not only does the unique construction hold weight down to a minimum, but the Modular Container also has a high strength-to-weight ratio for maximum protection at minimum transport cost. It can pay for itself in transportation savings alone.

ALUMINUM CONTAINER BENEFITS

- Extended Life Equals LOWER Life Cycle Costs
- Won't 'Loosen Up' Like Screwed or Nailed Wooden Crates do with Handling
- Not Susceptible to Splintering, which can be a Human Hazard
- Fully Gasketed and WEATHER Tight
- Will Not Absorb Jet Fuel, Oils, Solvents
- Not Susceptible to Aging and Cracking
- No Materials to Support Fungal Growth
- Will Not Absorb Water
- Not a Combustible Material
- Seals Last for Five Years
- Not Susceptible to Insects

CONSTRUCTION

- Available in Any Size and Configuration
- Meets applicable provisions of MIL-C-4150, MIL-PRF-28800, MIL-STD-108, MIL-STD-810
- ASTM D 4169 Distribution Cycle DC 18 is Feasible
- Stackable to 3 High*
- High Strength to Weight Ratio Affords Lower Transit Costs

INTERNAL MOUNTING FEATURES

- Shock Isolation Plates
- Wide Selection of Foam Material
- Saddle Mounting
- Stabilization Fixtures/Supports

APPLICATIONS

- Unmanned Aerial Vehicles (UAV)
- Aircraft Engines, Wheel & Brakes
- Secured Inventory Systems
- Industrial Storage
- Missile Transport & Storage
- Deploying Robots
- Fragile Electronic Equipment
- Vibration Sensitive Equipment

* Standard load weight limit on lower stacked container is 800 lbs. Consult ZERO's Engineering and Design for stacked loads exceeding 800 lbs.

MODULAR CONTAINER FEATURES

- Durability allows the container to be used for multiple shipments. Aluminum Modular Containers are "Reusable".
- No tools are needed to assemble or open Modular Containers.
- Handle manually, by crane, hoist or fork lift truck for stacking.
- Maximum shock isolation and environmental protection.
- High strength-to-weight ratio for maximum protection at minimum transportation costs.
- Completely customizable—construct in any size and configuration.

BUILD YOUR MODULAR

Ordering a Modular Container can be as easy as composing a part number. Simply choose the construction best suited to your needs, determine your size requirements, style, color and optional accessories. ZERO will design and manufacture containers to meet applicable requirements.

STANDARD CONTAINER FEATURES INCLUDE:

- Panel Stiffeners (as required)
- ZP20137 Handles (Type A & B)
- Continuous Neoprene Seal
- Designed to be Watertight at a Pressure Differential 0.4 psig
- ZSP 6-037-1 Automatic Pressure Relief Valve
- ZSP 2-2001 Latches on Material Type A (as required) to Maintain Waterproof Seal
- ZSP 2-216 Latches on Material Type B (as required) to Maintain Waterproof Seal
- Proper Placement and Location of Optional Accessories
