

**THE ZERO MANUFACTURING, INC. TRANSITAINER™** line represents the ultimate in total packaging capability at a very affordable price. Transitainers™ provide a highly reliable, cost effective alternative to other types of shipping/storage and transit cases. These cases are also available through our Quick-Ship Program.

Details available at [www.zerocases.com/quickship](http://www.zerocases.com/quickship)

The Transitainer incorporates the total package at an affordable price and has outstanding durability and performance. With easy storage and transit with trouble free stacking, the Transitainer is perfect for shipment and storage of such items as:

- Field portable, sensitive electronic instruments
- Military applications, monitoring equipment
- Seismic, pollution control instrumentation
- Airport, flight guidance systems
- Telecommunications equipment
- Field communications systems
- Field computer systems
- Test equipment

## CASE FEATURES

- Made from rotationally molded polyethylene plastic
- Compounded color impregnated directly into durable polyethylene plastic shells
- Gasketed construction with integral tongue and groove closure interlocks top and bottom for environmental protection
- Meets ATA 300 Category 1, and applicable portions of MIL-PRF-28800, MIL-C-4150 and MIL-STD-108 specifications
- Recessed hardware for added protection
- Wide range of colors available using FED-STD-595 guidelines
- Spring-loaded, rattle proof handles with 90° stops
- Cam action, positive latches
- Interlocking ribs, top and bottom allow for stacking of containers
- Resists most chemicals and solvents

1. Go to [www.zerocases.com/quickship](http://www.zerocases.com/quickship) to see case sizes for low-quantity orders with 5 to 10 day delivery times ARO.

# ZERO KNOWS

## SHIPPING & TRANSIT CONTAINERS

**ZERO'S EXTENSIVE KNOWLEDGE AND EXPERIENCE** in engineering transit and storage technology makes us the indisputable leader in rugged plastic and metal cases. Our Transitainer™ line represents the ultimate in total packaging capability at a very affordable price while our Modular Containers are the ultimate in durable, reusable shipping and storage solutions.

**TRANSITAINERS:** Available in over 70 standard sizes, with a variety of options, plus our capability to manufacture custom solutions is why ZERO is the recognized leader in serving our global customers with protective enclosure solutions.

#### Key Features & Benefits:

- Uniform wall thickness for durability
- Interlocking ribs, top and bottom, allow for stacking
- Rotomolded cases resist most chemicals and solvents
- Integrally molded tongue-and-groove closure
- Recessed hardware for added protection
- Meets applicable portions of MIL-PRF-28800, MIL-STD-4150 and MIL-STD-810

**VAL-AN CASES:** Val-An means "Value Analyzed," demonstrating a commitment from ZERO to provide the desirable features of the Val-An Series in efficient, cost-effective cases. Val-An Series cases come in many standard sizes and configurations. They can also be customized to meet an even greater number of needs.

#### Case Features:

- 52 width and length combinations, and many depths from which to choose
- Water-tight construction meets MIL-STD-108
- Made from seamless, deep drawn aluminum shells
- Choice of closure type, panel flange, and/or inner lid, and finish

**MODULAR CONTAINERS:** Custom engineered cases to meet your exacting needs, Modular Containers are made from light-weight aluminum and make exceptional reusable shipping and storage containers. Your first cost is your last cost when you choose these rugged shipping and storage containers.

#### Key Features & Benefits:

- High Strength-to-Weight Ratio
- Construction flexibility and reusable
- Maximum shock isolation and environmental protection possible
- Easy, fast, economical accessorizing with standard options
- Virtually endless sizes available—Build to specification
- Meets applicable provisions of MIL-STD-108, MIL-STD-810, and MIL-PRF-28800
