RELIABILITY

PROTECTION

ZERO KNOWS that reliability is key in the electronics industry, but you need more—you need protection that meets your specifications and reliability to withstand extreme conditions. ZERO's customizable products range from very large transportation containers to very small transformer shells and EMI shielding enclosures. Quality tested to stand up to the harshest temperatures from extremely hot, to freezing cold, from full immersion in water to humidity extremes—we have the reliability, quality and protection you need.

ELECTRONICS INDUSTRY APPLICATION USES

- Shock Mounted Components
- Rackmount/Server Storage Containers
- Transformer Protective Enclosures
- Equipment Cases
- Custom Components
- Monitoring Equipment Enclosures
- Tool Trays and Cases
- EMI Shielding Enclosures
